### Procedure

- 1 Blend ingredients in given order

Scruff Beard Oil softens and conditions facial hair and underlying skin. It contributes to a more sophisticated looking beard by taming hairs that otherwise stand out, and also helps to combat ingrown hairs. Scruff Beard Oil is light and does not cause unappealing shine. Its softening and skin caring properties are derived from a combination of Lipex SheaClear, our super clear shea oil rich in unsaponifiables, and other Lipex emollients.
