Lipex IllipeSoft™

Recommended applications: skin care, lip care and dermo-cosmetics

INCI NAME Shorea Stenoptera Seed Butter

High stability, cosmetic grade illipe butter with a unique soft, pliable texture. Lipex IllipeSoft is an effective moisturizer and texturizer with a higher melting point and more rapid crystallization pattern than standard illipe butters. Compatible with most commonly used emollients and waxes, Lipex IllipeSoft acts as a sensory enhancer, delivering a luxurious skin feel to a wide range of formulations.

Appearance: off-white, solid butter
Solid fat content at 35°C: 15°C
Slip melting point: 50°C
OSI: 70h, 110°

COSMOS APPROVED

Typical use concentrations: 1–5% for lotions and creams, 5–15% for body butters, 2–4% for lip care

Key features and benefits

- High melting point and rapid crystallization pattern ensure smooth, rich, homogenous formulations with excellent thermal stability and long shelf life.
- Forms a lipid film on the skin to prevent moisture loss and give a soft, non-oily sensory feel.
- High stability makes it suitable for fragrance-free products.
- Sustainably sourced from the rainforests of Borneo making it an eco-friendly choice for cosmetic formulations
