Lipex Bassol C™

Recommended applications: all cosmetic applications

INCI NAME Canola oil (or) Olus oil

A superior quality canola-based oil with high oxidative and photo-oxidative stability and an odorless, colorless appearance. Lipex Bassol C eliminates the common challenges encountered when formulating with vegetable oils and offers a sustainable alternative to low spreading mineral oils and synthetic emollients. Suitable for cold processing, it provides an excellent base for eco-friendly formulations.

Appearance: clear, colorless oil

Cloud point: -8°C

OSI: >40h, 110°C

COSMOS
APPROVED

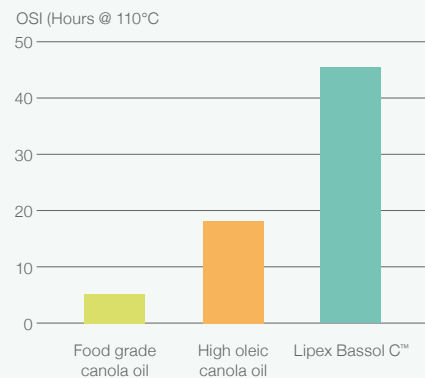

Typical use concentrations: 1–15% for skin care, 1–4% for hair care, 2–10% for lip care

Key features and benefits

- High oxidative and photo-oxidative stability provide long shelf life.
- Clear and odorless, Lipex Bassol C does not influence the color and fragrance of the final product.
- Derived from renewably sourced, high quality canola oil Lipex Bassol C offers a sustainable, environmentally friendly alternative to low spreading mineral oils and synthetic emollients.
- Excellent safety profile and high stability make it suitable for use as a base emollient for all skin care formulations, including those targeted at sensitive and delicate skin.

High stability – long shelf life
